KUMAR GAURAV SHARMA

Lead Software Engineer | 11+ Years | Java 21, Spring Boot, Microservices, Kafka, SQL | Distributed Systems | Fintech, Govtech
Bhopal, India | +91-9111735135 | kumargauravsharma889@gmail.com | linkedin.com/in/kumargauravsharma889

PROFESSIONAL SUMMARY

Lead Software Engineer with 11+ years of experience building secure, high-performance distributed systems in FinTech and GovTech. Expert in Java 21, Spring Boot, Hibernate, Spring Security, microservices, Kafka, and event-driven architecture, including platforms processing 10M+ daily transactions. Proven record of improving API performance, throughput, and reliability, with strong technical leadership, design review, and mentoring experience. Also experienced in AI-assisted software modernization and agentic engineering using OpenAI Codex and GitHub Copilot.

TECHNICAL SKILLS

Languages: Java 21, Java 11, Java 8, JavaScript, SQL
Frameworks: Spring Boot, Spring Framework, Spring Security, Hibernate/JPA, REST APIs, J2EE, React
Architecture: Microservices, Distributed Systems, Event-Driven Architecture, Cloud-Native, Asynchronous Processing
Messaging & Databases: Apache Kafka, JMS, Apache NiFi | SQL, MySQL, Oracle, PostgreSQL, Arango DB
Security: OAuth2, JWT, RBAC, Secure API Design, Aadhaar Authentication
Cloud, DevOps & Observability: AWS, Kubernetes, Docker, Rancher, Jenkins, Git, GitLab, CI/CD, Prometheus, Grafana, ELK Stack
AI-Assisted Engineering: OpenAI Codex, GitHub Copilot, Cursor AI, Prompt Engineering, Code Review & Refactoring

PROFESSIONAL EXPERIENCE

Lead Software Engineer | Volvo (Ascendion) *Aug 2026 – Present*

- Contribute to forward engineering and modernization of a large-scale Volvo application using AI-assisted and agentic engineering approaches.
- Design and develop task-specific AI agents with OpenAI Codex for development, documentation, and modernization; apply GitHub Copilot and prompt-driven workflows to accelerate delivery.

Lead Software Engineer | GCash (Mynt / Ascendion) *Apr 2022 – Jul 2026*

- Designed and scaled microservices with Java 21, Spring Boot 3.x, Hibernate 6.x, and Spring Security 6 for systems processing 10M+ daily transactions.
- Reduced API latency by 30–40% through query optimization, caching, and asynchronous processing.
- Doubled system throughput (2×) by implementing Kafka-based event-driven architecture.
- Implemented OAuth2/JWT security for high-value financial transactions and secure API access.
- Improved release efficiency by 50% with Kubernetes and Docker; cut production incidents by 35% using Prometheus and Grafana.
- Led design reviews, engineering mentorship, and cross-team architecture decisions.

Java Developer | MAPIT / MPSEDC (Primeone Workforce) *Jun 2021 – Apr 2022*

- Developed SAMPADA 2.0, a government e-registry platform, using Java 8/11, Spring Boot 2.x, Hibernate 5.x, and Spring Security 5, supporting millions of transactions monthly.
- Improved API performance by 25–30% and reduced database load by 20% via Hibernate tuning, indexing, and caching.
- Designed RBAC security architecture for government compliance; built React modules that cut page load time by 40%.

Java Developer | Awzpact Technologies *May 2017 – May 2021*

- Built full-stack enterprise applications with Java 8, Spring Boot, Hibernate, Spring Security, and React.
- Implemented Aadhaar authentication (AUA/ASA) with Spring Security.
- Doubled scalability (2×) via microservices and Kafka; cut data processing time by 50% with Apache NiFi; improved query performance by 30%.

Software Developer | TwoAllons Infotech *Oct 2014 – May 2017*

- Developed enterprise web and desktop applications using Java, J2EE, Servlets, JSP, JMS, and relational databases; improved processing efficiency by 20%.

Technical Trainer | NIIT *Apr 2013 – Oct 2014*

- Delivered training in Java, C, C++, Android, DBMS, and software engineering fundamentals.

KEY PROJECTS

- GCash Super App (payments, investments, campaigns; 94M+ users) | SAMPADA 2.0 (state-wide e-registry and e-stamping) | UIDAI Aadhaar AUA/ASA and e-KYC systems | Government platforms: PRAYAS, SANKALP, ANUBANDH, SAMPARK | Wikimedia data pipelines

EDUCATION

M.Tech, Computer Science | RGPV, Bhopal | 2015–2017 | 77.50%
B.E., Computer Science | RGPV, Bhopal | 2008–2012 | 73.50%

CERTIFICATIONS

GenAI Mastermind, Outskills (2025) | CompTIA Security+ SY0-601 (2023) | UIDAI Aadhaar API Integration (2019) | J2SE, J2EE, SQL, DBA, NIIT (2013) | DB2 Certification, IBM Centre of Excellence (2012)
